

Invitation

To the international INTERREG project development workshop in Brussels on the 13th Nov. 2014

Dear Ladies and Gentlemen, on the 13th Nov. 2014 the previously announced project development workshop takes place in the Representation of Saxony-Anhalt, Boulevard Saint Michel 80.

The workshop builds upon various earlier events linked to INTERREG Europe and INTERREG Central held by the respective actors in Berlin, Vienna and Halle.

It is a joint venture of the Ministries of Science and Economics as well as Regional Development and Transport Saxony-Anhalt and the EU Service-Agency at the Investment Bank Saxony-Anhalt.

Purpose of the workshop is to familiarize potential applicants (lead partners) as well as project partners, who are interested in European cooperation through INTERREG, with the “secrets” of the INTERREG programme. Local and regional authorities, municipalities and other public entities in addition to private enterprises are the target group.

Objective is to develop concrete project drafts in small work groups based on the already send in ideas, who should than be submitted for the first call for projects. Due to this, as well capacity issues, only institution whose staff and financial abilities are sufficient to hand in an application for the 1st call or to be a project partner are invited.

The projects ideas, which can be further developed during the workshop in small groups address the following topics:

- CO₂-agents in public infrastructure
- Sustainable water management
- Ecologically friendly and cost efficient intermodal distribution within Central Europe
- Securing availability of skilled workforce for SME
- Integrated development of public infrastructure with a special focus on broadband infrastructure
- Regional strategies against IT skills shortage
- Roll on Roll off rail shuttle
- Improved environment management systems in functional urban area governance
- Promotion of the regional development of rural areas through intensifying the cooperation with higher education institutes / universities
- Improved used of ground-coupled heat pump systems

Please use the attached registration form to register for the workshop via e-mail till the 15th October 2014.

We would be delighted to welcome you to the Representation of Saxony-Anhalt in Brussels.

Registration form

for the international INTERREG project development workshop in Brussels on the 13th Nov. 2014

at the Representation of Saxony-Anhalt, Boulevard Saint Michel 80

Name: _____

First Name: _____

Institution: _____
